**Subject:** FW: News Release: Here's What They're Saying About the Clean Water Act Proposed Rule

Good morning All,

Not Responsive

Yesterday I also got an update from the SAB on the next steps for our report. The panel's draft review will be posted to the SAB website sometime late this week or early next week. There will be two teleconferences for panel members to (1) receive public comments and (2) discuss their draft report, which they have not yet done as a panel. We will also have the opportunity to comment. The teleconferences are scheduled for **Monday, April 28, 2014** and **Friday, May 2, 2014**. Each call will be 4 hours, 1-5 pm eastern time (not public information, had not confirmed until Federal Register Notice is posted). Please try to hold these dates and times open. I'll send an update when the FRN is published.

Congratulations, and thank you!  
Laurie
